### ISRAEL'S STORY REVISTED

Identity's educational travel experience is the only tour that provides insight on current events as well as history.

Our site packed itineraries and engaging tour guides allow you to experience the past vividly and appreciate its impact on the present and the people living in Israel today.

In our on tour discussion groups you will meet ordinary citizens as well as decision makers and scholars. Identity Educational Travel brings to you as many diverse views and voices as time allows.

All of these stories and opinions, fused together as they are on this small stretch of land, are the true story of Israel.

Israel's story cannot be conveyed in the "sound byte" reality of the news media it needs to be told by people living in Israel. Through their lives the story is constantly retold, revisited and reinvented.
